💼 EMPLOYMENT HISTORY

Technical Consultant - Internship at Hewlett Packard Enterprise
March 2021 — May 2021

In this three-month internship I designed an architecture model to provide centralized server- and identity management and authentication in a hybrid IT environment. This project was developed with Microsoft's Cloud Adoption framework and security best practices in mind, and serves as a framework that can be used to create solutions for organizations wanting to migrate to the Azure cloud. Read more about my internship on my website.

Administration - Job student at Bitbikes bvba
January 2019 — December 2019

In this student job I assisted the administration team with any required duties. This includes:

- Developing & updating the company website
- Contact with clients

Restaurant - Jobstudent
August 2017 — December 2020

Weekend & vacation job in an Italian restaurant. Tasks include:

- Aid in kitchen
- Dishwashing
- General aid

🎓 EDUCATION

Bachelor Electronics - ICT (Cloud & Cyber Security), Thomas More College, Geel
September 2018 — June 2021

Currently student in the 3-year long bachelor education of Electronics – ICT at the Thomas More college in Geel (Belgium). In this education I'm following the choice trajectory of Cloud & Cyber Security.

Accountancy - ICT (High School), PiusX College, Tessenderlo
September 2012 — June 2018

In this education the main courses were accountancy and informatics, in my last year I also achieved a business management certificate.

⭐ CERTIFICATES

Microsoft Learn Student Ambassador - Alpha member

The Microsoft Learn Student Ambassadors program is a global group of on-campus ambassadors who are eager to help students and their communities, lead in their local tech circles, and develop technical and career skills for the future.
